

ICCB 2019 Program Schedule
Speed Talks

Session	Title	Presenting Author(s)
Biome conservation	Grasslands governance at community and landscape scale – a network approach	Andreea Nita
Biome conservation	Contrasting occurrences of arboreal and ground-dwelling land snails along an urbanization gradient: the role of predation and fragmentation	Ikuyo Saeki
Biome conservation	Xylem parenchyma cells and their carbohydrate contents in 12 conifer species across seasons and 2750m of opposing temperature and moisture	Jessie Godfrey
Biome conservation	Understanding Cephalopachus bancanus borneanus (Bornean Tarsier) in Bintulu, Sarawak through the Distribution and Ecology	Marina Mohd. Top @ Mohd. Tah
Biome conservation	Propagation of Entada rheedii: a Threatened Fodder Climber with Extremely Thick, Hard and Impermeable Seed Coat	Md. Aktar Hossain
Biome conservation	Mesocarnivore persistence in agricultural landscapes of southern Chile: evidence for policy and planning	Nicolas Galvez
Biome conservation	Preventing biodiversity loss and ecosystem degradation in Islands in Cochin backwater by the residents, local self-government through a	Rosamma Stephen
Biome conservation	Habitat quality measurements for primate conservation: review and comparison of the economic cost of new and old methods	Xyomara Carretero Pinzon
Biome conservation	Habitat heterogeneity is essential for mesocarnivore conservation in human-dominated landscapes	Anjan Katna
Biome conservation	Presence of Batrachochytrium dendrobatidis affects chemical defences of two anuran species in the absence of clinical signs of infection	János Ujszegi
Biome conservation	Large carnivores in Tanzania's Ruaha-Rungwa: implications for trophy hunting and the conservation of African large carnivores in modern	Paolo Strampelli
Biome conservation	Utilizing a cross-sector approach to engage government and community stakeholders to save the endangered North Atlantic right whale	Tracy Bain
Biome conservation	Transcending boundaries for the conservation of migratory waterbirds and their wetland habitats in the East Asian – Australasian Flyway	Zeng Qing
Biome conservation		
Biome conservation		
Community-driven and capacity building conservation	Cultural heritage and Community Conservation: Experiences from Rwenzori Mountains National Park-Uganda: Clare D. Kyasiimire,	Clare D. Kyasiimire
Community-driven and capacity building conservation	A quantitative approach to measuring natural resource governance and exploring governance profiles	Matheus De Nardo
Community-driven and capacity building conservation	Why Mexican students eat beef? Understanding the factors associated with beef consumption to achieve sustainable diets	Patricia Manzano-Fischer

ICCB 2019 Program Schedule
Speed Talks

Community-driven and capacity building conservation	Taking the conservation buzz beyond research: Involving local farmers for habitat restoration and monitoring of non-Apis bees in Doon valley, India	Preeti S. Virkar
Community-driven and capacity building conservation	Recovery of the endangered Greater Adjutant Stork <i>Leptoptilos dubius</i> (Gmelin) in Assam, India	Purnima Barman
Community-driven and capacity building conservation	COLLABORATIVE FOREST MONITORING IN AND AROUND THE INDAWGYI WILDLIFE SANCTUARY	Su San Win Pe
Community-driven and capacity building conservation		
Community-driven and capacity building conservation		
Community-driven and capacity building conservation

Conservation in hotspots	POLITICS AND POLICY IN THE CLOSURE AND CONSERVATION OF BORACAY WHITE BEACH, PHILIPPINES	Maria Rebecca Campos
Conservation in hotspots	Peace in Colombia is a critical moment for conservation: Save the northern Andes-Amazon biodiversity bridge	Nicola Clerici
Conservation in hotspots	Automated delineation of the number of animal territories using digital mapping and spatial statistics in freely available GIS technology	Piotr Skórka
Conservation in hotspots	Catalogue of endangered and protected species as a tool for conservation management in a biodiversity hotspot of the Mediterranean basin	Sandra Saura-Mas
Conservation in hotspots	Conserving Migratory Butterflies	Shawan Chowdhury
Conservation in hotspots	Factors influencing habitat utilization and occupancy of Slaty Egrets in Zambia's Barotse floodplain Important Bird and Biodiversity Area	Erin Poor
Conservation in hotspots

Conservation in hotspots		
Conservation science	Enabling marine conservation interventions through alternative finance mechanisms	Gonzalo Araujo
Conservation science	Mitigating inbreeding depression in captive breeding for translocation population of tuturuatu, a nationally critical shorebird	Ilina Cubrinovska
Conservation science	Patterns of vertebrate richness across global anthromes: prioritizing conservation in the Anthropocene	John Quinn
Conservation science	Changes in the demographic and genetic status of North American zoo populations over time	Judy P. Che-Castaldo
Conservation science	Rice fields and an endangered waterbird challenge Australia's polarised water resource management	Matthew Herring
Conservation science	Phylogeny of Hoolock gibbons in India	Mihir Trivedi
Conservation science	Regional scientific research helps threatened mammal species conservation	Pengfei Fan
Conservation science	Endoparasite prevalence and associated physiological changes in Rhesus Macaques (<i>Macaca mulatta</i>) across areas of different intensities of human	Sakshi Nulkar
Conservation science	Using large-scale genomics to unveil drivers of mutational load in vertebrates	Tom Van Der Valk
Conservation science	Relating Species Diversity and Molecular Genetic Diversity	Jules Byrnes

Conservation science 3	A Systematic Review of Studies on Arsenic with Special Reference to India	Abhra Singh
Conservation science 3	Missing basics: A study on sanitation and women's health in urban slums	Anushree Nagpal
Conservation science 3	Identification of the Affected Area on Public Health from Pesticide Leaching of Highland Agriculture in Nan Province, Thailand	Detrit Sittibal
Conservation science 3	Cautioning against the overemphasis of normative constructs in conservation decision making	Esty Yanco
Conservation science 3	Benefits of an International Course-based Undergraduate Research Experience (I-CURE) Centered in Environmental Policy and Conservation in	Jacqueline S McLaughlin
Conservation science 3	Evaluating the barriers and opportunities for behaviour change interventions to reduce disposable plastic bag use and waste in the	Jerry Aylmer
Conservation science 3	Using brand identity and attributes in conservation education to foster empathy for threatened species	K. Anne Isola Nekaris
Conservation science 3	Pejuang Laut: Building Local Champions to Catalyze Marine Conservation in in Maluku and North Maluku Province, Indonesia	I Putu Yoga Putra
Conservation science 3	International cooperation with falconers for the conservation of Saker Falcon	Otgonsaikhan Dorjsuren
Conservation science 3	Assessment of forest fragmentation using remote sensing and GIS: A case study on Senapati District of Manipur, North East India	Rebika Ahanthem
Conservation science 3	Influence of Wetland Restoration on Fish Species Diversity	Thirunavukkarasu Sonachalam
Conservation science 3	How sequencing genomes can help conservation efforts: the case of the Dryas monkey	Tom Van Der Valk

Speed Talks

Ecology	Assessing the success of worldwide kelp restoration efforts	Aaron Eger
Ecology	Anthropogenic areas as incidental substitutes for original habitat	Alejandro Martínez-Abraín
Ecology	Mammal communities respond to habitat structure, not time since fire, in a heterogeneous landscape	Annalie Dorph
Ecology	The shifted baseline: Long-term analysis of defaunation in Central Europe and its consequences for biodiversity conservation	Attila Németh
Ecology	Indonesia Primates: Facing complicated challenges from their habitat conversions.	Jatna Supriatna
Ecology	Historical distribution and current conservation status of the neglected otters in China	Lu Zhang
Ecology	What can seed dry weight tell us during succession?	Maria Elizabeth Rodriguez Ronderos
Ecology	Anthropogenic impact on the latitudinal pattern of amphibian invasion: is species adaptation to overwintering a potential risk?	Siti N. Othman
Ecology	Socioeconomic characteristics, livelihoods, and perceptions toward resolving human-tiger conflict in the Nilgiri Biosphere Reserve, India	Tharmalingam Ramesh
Ecology	Fire intensity and pre-fire size does not govern survival and resprouting vigour of dune thicket in the southern Cape, South Africa	Tiaan Strydom

Landscape conservation and planning	Pattern and process of Felidae genetic diversity and demographic history: a review of recent studies and applications in tropical regions	Amira Azizan
Landscape conservation and planning	C3 and C4 photosynthetic pathways in grasslands across a latitudinal gradient in eastern Australia	Andy Le Brocque
Landscape conservation and planning	Protected Area Network Performance: Evaluating long-term success and spatial optimisation	Charles Alexander Cunningham
Landscape conservation and planning	Ecotoxicological evidence of inshore habits and health risk in the resident population of bottlenose dolphins in Bocas del Toro, Panamanian	Dalia C. Barragán-Barrera
Landscape conservation and planning	Modeled land use change scenarios developed through participatory stakeholder engagement	Iara Lacher
Landscape conservation and planning	Quantifying the impact of land-use change on habitat selection of threatened Tasmanian mammals using a camera-trapping network	Jessie C. Buettel

ICCB 2019 Program Schedule
Speed Talks

Landscape conservation and planning	Birds in the landscape: what is actually affecting them?	Marco Basile
Landscape conservation and planning	What best explains functional connectivity among populations of three sympatric plant species in an ancient terrestrial island system?	Paul Nevill
Landscape conservation and planning	Topographic and edaphic drivers of β diversity	Stephanie Miller
Landscape conservation and planning	Smithsonian Conservation's Working Land and Seascapes Action Area: connecting science to conservation practice and capacity development	Thomas Akre
Landscape conservation and planning	Pollinating insects and birds across a landscape	Vishesh Leon Diengdoh
Landscape conservation and planning	Tanintharyi Working Land/Seascape Program: Encouraging sustainable development of a global biodiversity hotspot through research and spatial	Melissa Songer
Landscape conservation and planning		
Landscape conservation and planning		
Landscape conservation and planning		
Marine conservation	Management Implications of Submarine Groundwater Discharge on Coral Reef Metabolism in Maunalua Bay, Hawai'i	Katia Chikasuye
Marine conservation	Sand temperature profiles at turtle nesting sites in the Red Sea: implications on hatchling sex ratios	Lyndsey Tanabe
Marine conservation	Implications of climate velocity for the marine protected area network of South America	Rafaela De Albuquerque Ribeiro
Marine conservation	Predator control of Cape fur seals <i>Arctocephalus pusillus pusillus</i> who predate on Cape gannets <i>Morus capensis</i> on Penguin (Bird) Island, South	Zanri Schoeman
Marine conservation	Sunken worlds: The past and future of human-made reefs in conservation	Sofia Castello y Tickell
Marine conservation	Inter-generational Learning for Women Leaders: Harnessing the Next Generation of Marine Conservationists in the Coral Triangle	Leilani Gallardo
Marine conservation	Understanding the whys of Fish Bombing; Stories from Tun Mustapha Park	Joannie Jomitol
Marine conservation	A Review of Formal Marine Conservation Efforts in Indonesia: Success, Gap and Effectiveness	Christian Novia

Marine conservation		
Monitoring and modeling	Baited Remote Underwater Video (BRUV) Survey in Tun Mustapha Park (TMP) Marine Park, Malaysia.	Adam Payne
Monitoring and modeling	A new framework to avoid the extinction highway due to hybridization with genome exclusion	Claudio Quilodran
Monitoring and modeling	Monitor numbers or trends? Different approaches have different pros and cons in a study of recovering subantarctic seabirds.	Jeremy Bird
Monitoring and modeling	Assessing the roles of seed bank and seed dispersal for meta-population viability of a pyrogenic herb	Pedro Francisco Quintana-Ascencio
Monitoring and modeling	Lessons from ten years of White-shouldered Ibis monitoring in Cambodia	Phearun Sum
Monitoring and modeling	The sustainability of indigenous livelihoods in the Amazonian forests: Is deforestation changing with Conditional Cash Transfers?	Priscila dos Reis Cunha
Monitoring and modeling	Effectiveness of CITES at reducing the extinction risk of trade-threatened terrestrial mammals	Sarah Stephen
Monitoring and modeling	Characterizing individual consumption of supplemental food to predict reproductive performance and viral infection in an endangered parakeet.	Simon Tollington
Monitoring and modeling	Assessing population and movement parameters for the wide-ranging Asian elephant using photographic spatial capture–recapture	Varun R. Goswami

Monitoring and modeling		
Monitoring and recovery	Successful hand-rearing of Javan hawk eagle (<i>Nisaetus bartelsi</i>) at Taman Safari Indonesia as a model for headstarting program for conservation	Bongot Huaso
Monitoring and recovery	The Application of Positive Reinforcement Training in the Ex-situ Conservation of the Giant Panda (<i>Ailuropda melanoleuca</i>)	James Ayala
Monitoring and recovery	Health and human habituation influence the survival of translocated and dispersing individuals in a territorial mammal	Marco Campera
Monitoring and recovery	Managing for multiple threats: prioritizing conservation actions for endangered Hawaiian tree snails	Melissa Price
Monitoring and recovery	Recovery of endemic land snail in South Korea	Moonhyun Shin
Monitoring and recovery	IN SITU CONSERVATION OF LONG-BILLED VULTURE (<i>GYPS INDICUS</i>): A MANAGEMENT SUCCESS IN KAGAZNAGAR FOREST, INDIA	Narasimha Reddy Annapareddy
Monitoring and recovery	Multi-method approach to evaluate impact of intensive conservation interventions on gharial crocodilians, Nepal	Phoebe Griffith
Monitoring and recovery	Effective counting of hippopotamus (<i>Hippopotamus amphibius</i>) in the Okavango Delta, northern Botswana, using a remotely piloted aircraft	Victoria Louise Inman
Monitoring and recovery	Successful artificial insemination of Javan banteng (<i>Bos javanicus</i>) and future applications for conservation and benefits to local communities	Yohana Trihastuti

Social Science	Connect with Nature - an innovative way to engage, inspire and inform	Jennifer Croes
Social Science	Infrastructure development, extractive industry and biodiversity conservation in the tropics: Finding common ground	Jessica Deichmann
Social Science	Are there any beautiful gibbon song? Gibbon Conservation Initiative in the palm oil concession, Central	Kasih Putri Handayani

ICCB 2019 Program Schedule
Speed Talks

Social Science	Human-Wildlife Competition: Seeing Species Conservation through a Social Conflict Lens	Kwan-Lamar Blount-Hill
Social Science	Collecting socio-economic data for Protected Area Management planning in the Alaungdaw Kathapa National Park, Myanmar	Kyaw KhaungThant Zin
Social Science	Protected area conflicts still a critical conservation issue. A new conceptual framework and insights from a Central and Eastern European country.	Marcin Rechciński
Social Science	Community based conservation in the transboundary Sky Island Region	Mirna Manteca
Social Science	Are Social Media Reports Useful for Assessing Small Ape Occurrence?	Nurul Iza Adrina Mohd Rameli
Social Science	"Bears know no borders": Communicating across boundaries for spectacled bear conservation	Rhianna Rachelle Hohbein
Social Science	Otter Working Group: A multi-disciplinary, multi-stakeholder approach to otter issues in Singapore	Tianjiao Li
Social Science	Impacts of deforestation related heat exposure on productivity and cognitive performance in Indonesian agricultural communities	Yuta Masuda
