

MONDAY 22 JULY		THEME: PLASTICS SOLUTIONS												
Time	Exhibit Hall	Plenary Hall, Level 3	Plenary Theater, Level 3	Conference Hall 1, Level 3	Conference Hall 2, Level 3	Conference Hall 3, Level 3	Banquet Hall, Level 3	Meeting Room 302-303, Level 3	Meeting Room 304-305, Level 3	Meeting Room 401-402, Level 4	Meeting rooms 403-404, Level 4	Meeting Room 406-407, Level 4	Meeting Room 408-409, Level 4	
8:00-8:30		Opening Remarks												
8:30-9:30		Plenary												
9:30-10:00 Coffee break														
10:00 - 11:30		Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Oral Presentations	Symposium	Symposium	Symposium	Symposium
		Leveraging SMART to improve protected area management effectiveness	How to grow your project impact, measure it, and still do what you love	Spatial Action Mapping	Building capacities to support biodiversity related Science-Policy Interfaces (SPIs)	Moving Beyond Bias: Forging change across boundaries by engaging academics, practitioners, public and private sectors in rapid synthesis science to solve immediate challenges for nature and people	Partnership for Sustainable Landscape: A New Conservation Paradigm for The Tropics	Advancing private sector biodiversity accountability	Conservation capacity building 1	The Asian wildlife trade: Extent, impacts and solutions	Grassroots community engagement: a critical tool for global wildlife conservation	From evidence to action	Research ethics in conservation: improving practice when working with people	
11:30-11:45 Break														
11:45-13:15		Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Symposium	Oral Presentations	Oral Presentations	Oral Presentations
		Social Science 2	Adaptive management and monitoring 1	Advocacy and engagement 1	Alien and invasive species 1	Behavioral ecology and conservation 1	Conservation at the land-water interface	Savanna conservation	Conservation biology 1	The Asian wildlife trade: Extent, impacts and solutions 2	Conservation genetics 1	Conservation GIS 1	Conservation in hotspots 1	
13:15-13:30 Break														
13:30-14:30	LUNCH	Open	Workshop	Workshop	Workshop	Workshop	Discussion	Workshop	Business meeting	Business meeting	Business meeting	Business meeting	Business meeting	
			How does your work contribute to the UN Sustainable Development Goals? Using sdgtool.com	Empowering developing countries to fully participate in and benefit from the development of open-source conservation technology	Wildlife Insights: A New Platform to Automate and Analyze Camera Trap Big Data for Conservation	Using theory for action in community conservation	Bridging the research-implementation gap 2.0: Are we making progress?	Workshop on Islamic Approaches to Conservation	Social Science Working Group Members Meeting	Latin America & Caribbean (LACA) Section Members Meeting				
14:30-16:00		Symposium 12	EID forum	Oral Presentations	Oral Presentations	Oral Presentations	Speed Talks	Oral Presentations	Oral Presentations	Oral Presentations	Symposium	Oral Presentations	Symposium	
		Identification and application of Key Biodiversity Areas in Asia	Fulfilling the need for greater Equity, Inclusion and Diversity within SCB sections	Habitat degradation and fragmentation 5	Citizen science	Conservation modeling 1	Conservation science 3	Ecosystem / conservation area management 5	Alien and invasive species 3	Inventory and monitoring 3	Shaping a future of evidence-based conservation: where are we, where do we need to be?	Wildlife trade 3	Re-imagining conservation research in Southeast Asia: from pattern to process	
16:00-17:30		Speed Talks	Oral Presentations	Speed Talks	Speed Talks	Oral Presentations	Speed Talks	Speed Talks	Speed Talks	Speed Talks	Speed Talks	Speed Talks	Oral Presentations	
		Ecology	Marine conservation 4	Conservation science	Biomes conservation	Traditional knowledge and conservation 1	Invasive species and behavioral ecology	Freshwater conservation	Landscape conservation and planning	Habitat degradation and fragmentation	Human-wildlife conflict	Monitoring and modeling	Overexploitation of natural resources 3	
17:30-19:00	Poster Session (Exhibition Hall 4-5, Level 1)													
19:00-21:00	Conservation Cinema (Plenary Theater, Level 3)													

TUESDAY 23 JULY		THEME: EMPOWERING COMMUNITIES												
Time	Exhibit Hall	Plenary Hall, Level 3	Plenary Theater, Level 3	Conference Hall 1, Level 3	Conference Hall 2, Level 3	Conference Hall 3, Level 3	Banquet Hall, Level 3	Meeting Room 302-303, Level 3	Meeting Room 304-305, Level 3	Meeting Room 401-402, Level 4	Meeting rooms 403-404, Level 4	Meeting Room 406-407, Level 4	Meeting Room 408-409, Level 4	
8:00-8:30		Opening Remarks												
8:30-9:30		Plenary												
9:30-10:00 Coffee break														
10:00 - 11:30		Oral Presentations	Oral Presentations	Symposium	Oral Presentations	Symposium	Symposium	Symposium	Symposium	Oral Presentations	Symposium	Symposium	Symposium	
		Inventory and monitoring 1	Community-driven conservation 2	Conservation of the Biodiversity of Karst Limestone in SE Asia, Lessons from the Peninsular Malaysian Experience	Ecosystem / conservation area management 1	Why animal behavior and ecology matter for mammal conservation in practice	Reducing demand for illegal wildlife products through evidence-based behavior change interventions	Hotspots of diversity and natural capital: assessing risks to Asian ecosystems	Linking nature and people; planning for ecosystem services	Conservation geography 1	Participatory conservation under the microscope: Examining diverse approaches for reframing conservation problems and solutions	Putting a cost on our conservation goals	Building nature-rich cities	
11:30-11:45 Break														
11:45-13:15		Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Symposium	Oral Presentations	Symposium	Oral Presentations	Oral Presentations	
		Ecosystem functions and services 1	Evolution and conservation 1	Forest conservation 1	Freshwater conservation 1	Habitat degradation and fragmentation 1	Human-wildlife conflict 1	Hotspots of diversity and natural capital: assessing risks to Asian ecosystems 2	Land use planning for conservation	Conservation culturomics – harnessing the digital revolution to gain insights on human-nature interactions	Marine conservation 1	Overexploitation of natural resources 1	Conservation politics and policy 1	
13:15-13:30 Break														
13:30-14:30	LUNCH	Open	Workshop	Workshop	Workshop	Workshop	Workshop	Business meeting	Business meeting	Business meeting	Business meeting	Business meeting	Business meeting	
			Essential Leadership Skills for Conservation: Listening and Communicating Across Boundaries	Achieving sound economic conservation decisions through population ecology	Field Museum's Field Guide : a tool for education and bio-cultural conservation.	Engaging communities in conservation: an interactive session focusing on effective practice in behavior change, led by the Global Environmental Education Partnership						CTWG annual open meeting	SCB Marine Section Business Meeting	SCB Africa section business meeting
14:30-16:00		Symposium	EID forum	Symposium	Symposium	Symposium	Symposium	Symposium	Oral Presentations	Symposium	Symposium	Symposium	Symposium	
		Case Studies of Efforts by Conservation Scientists to Follow Proposed Guidelines for Interacting with Faith Leaders and Communities	Indigenous perspective on conservation biology and local community development	Climate change and land-use impacts in tropical montane systems and the specter of extinction debt	Voluntary, permanent private land protection: new empirical evidence on allocation and impact	Conservation Optimism: Celebrating what works in conservation to empower emerging conservationists	Estimating social and environmental impacts of conservation and sustainable development interventions and policies	Scientists, stakeholders, and managers: bridging the gap 3	Group decision making in conservation: The good, the bad and the ugly	Bioeconomy – Curse or blessing for biodiversity conservation	From monitoring to efficiently tracking change in global biodiversity targets	Mainstreaming behaviour change science in conservation	Emerging issues for the global conservation of marine and freshwater wetlands	
16:00-17:30		Oral Presentations	Symposium	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Symposium	
		Overexploitation of natural resources 2	Seeing the trees from the forest: improving environmental and social benefits from forest and landscape restoration through the use of fit-for-purpose seed	Protected area planning and design 1	Recovery of endangered species 1	Risk assessment and uncertainty 1	Conservation psychology and conservation on private lands	Scientists, stakeholders, and managers: bridging the gap 1	Conservation GIS 2	Spatial Ecology and Conservation 1	Sustainable agriculture 1	Urban area conservation 1	Emerging issues for the global conservation of marine and freshwater wetlands 2	
17:30-19:00 Poster Session (Exhibition Hall 4-5, Level 1)														
19:00-21:00 Career Night (Banquet Hall, Level 3)														

WEDNESDAY 24 July													
THEME: DIVERSITY IN SCIENCE													
Time	Exhibit Hall	Plenary Hall, Level 3	Plenary Theater, Level 3	Conference Hall 1, Level 3	Conference Hall 2, Level 3	Conference Hall 3, Level 3	Banquet Hall, Level 3	Meeting Room 302-303, Level 3	Meeting Room 304-305, Level 3	Meeting Room 401-402, Level 4	Meeting rooms 403-404, Level 4	Meeting Room 406-407, Level 4	
8:00-8:30		Opening Remarks											
8:30-9:30		Plenary											
9:30-10:00 Coffee break													
10:00 - 11:30		Oral Presentations	Symposium	Symposium	Speed talks	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium	Symposium
		Human-wildlife conflict 5	Understanding human-wildlife interactions from different social sciences and humanities perspectives	Nature education and community-based conservation, a Malaysian perspective	Ecology 2	Connecting the dots: inspiring conservation leaders of tomorrow	Linking landscape structure to ecosystem services	Infrastructure and the conservation of tropical forests	The Impactful Roles Aquariums and Zoos Play in the Conservation of Biodiversity	Generating, Accessing, and Using Evidence in Conservation Practice	Improving marine protected area management effectiveness in the Coral Triangle	Challenges and opportunities for tracking trends in species and ecosystems for reporting towards national and international biodiversity targets	
11:30-11:45 Break													
11:45-13:15		Speed talks	Speed talks	Speed talks	Speed talks	Speed talks	Speed talks	Speed talks	Oral Presentations	Speed talks	Oral Presentations	Speed talks	Oral Presentations
		Monitoring and recovery	Social Science	Sustainable agriculture and urban conservation	Wildlife trade	Biome conservation	Community-driven and capacity building conservation	Habitat degradation and fragmentation 2	Conservation in hotspots	Inventory and monitoring 4	Marine conservation	Wildlife trade 2	
13:15-13:30 Break													
13:30-14:30	LUNCH	Open	Workshop	Workshop	Workshop	Workshop	Open	Business meeting	Business meeting	Business meeting	Business meeting	Business meeting	Business meeting
			Understanding social science to improve conservation	Leadership styles – identify your strengths as a conservation leader	Communicating the concept of species recovery: Translating the terminology of the IUCN Green List of Species	Mapping global conservation governance beyond state-designated protected areas		What editors and reviewers are (not) expecting to find in your submission	Participatory and Citizen Science Working Group (PaCS) Meeting	Chapters Business Meeting			
14:30-16:00		EID forum	Oral Presentations	Speed talks	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations
		Promoting STEM culture in schools: teaching, engaging, and inspiring the next generation of conservation scientists	Scientists, stakeholders, and managers: bridging the gap 2	Social Science 3	Spatial Ecology and Conservation 2	Human-wildlife conflict 3	Disturbance ecology 1	Wildlife trade 1	Conservation in hotspots 2	Wetland and marine conservation 1	Adaptive management and monitoring 2	Population Viability Analysis	
16:00-17:30		Oral Presentations	Symposium	Symposium	Oral Presentations	Symposium	Oral Presentations	Symposium	Symposium	Symposium	Symposium	Oral Presentations	
		Spatial Ecology and Conservation 4	Prioritising phylogenetic diversity in conservation: philosophy, theory and practice	Dog and wildlife conflict	Human-wildlife conflict 4	Insights from land system science for conservation	Habitat degradation and fragmentation 3	Application of a standard framework to generate evidence for adaptive management of conservation programs in the Asia Pacific	Bridging Different Perspectives on Illegal Wildlife Trade in China: Toward an Integrative Framework	Developing conservation technology for impact	Improving the design and practice of offsetting and ecological compensation	Recovery of endangered species 2	
17:30-19:00		Oral Presentations	Oral Presentations	Discussion	Oral Presentations	Symposium	Symposium	Oral Presentations	Discussion	Discussion	Discussion	Discussion	Discussion
		Human-wildlife conflict 2	Conservation capacity building 2	Increasing Collaboration Across SCB Asia and Marine Sections	Community-driven conservation 1	Examining the social and psychological outcomes of privately protected areas in diverse contexts	Does wildlife farming help to reduce illegal unsustainable wild harvesting?	Spatial Ecology and Conservation 3	Preaching with the example: Enhancing SCB's discourse and actions to promote conservation and sustainable lifestyle	Bridging the gap: how to create and sustain collaborations for counterfactual impact evaluation in conservation.	What should conservation prioritize in the era of climate change?	IUCN SSC Conservation Translocation Specialist Group Human-Wildlife Interactions Working Group	

THURSDAY 25 JULY														THEME: SAVING WILDLIFE AND WILD PLACES													
Time	Exhibit Hall		Plenary Hall, Level 3	Plenary Theater, Level 3	Conference Hall 1, Level 3	Conference Hall 2, Level 3	Conference Hall 3, Level 3	Banquet Hall, Level 3	Meeting Room 302-303, Level 3	Meeting Room 304-305, Level 3	Meeting Room 401-402, Level 4	Meeting rooms 403-404, Level 4	Meeting Room 406-407, Level 4														
8:00-8:30			Opening Remarks																								
8:30-9:30			Plenary																								
<b>9:30-10:00 Coffee break</b>																											
10:00 - 11:30			Symposium	Symposium	Discussion	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations													
			Areas of Connectivity Conservation: Collaboration for Ecological Networks	Meeting global connectivity targets: metrics, tools, shortfalls	Analytical foundations for privately protected areas: Measuring success and impact	Conservation in hotspots 3	Disturbance ecology 2	Use of traditional ecological knowledge in conservation design and planning	Social Science 1	Habitat degradation and fragmentation 4	Human-wildlife conflict 6	Alien and invasive species 2	Recovery of endangered species 3														
<b>11:30-11:45 Break</b>																											
11:45-13:15			Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations													
			Marine conservation 3	Wetland conservation	Community-driven conservation 3	Alien and invasive species 4	Freshwater conservation 2	Sustainable agriculture 2	Conservation science 1	Biomes conservation 2																	
<b>13:15-13:30 Break</b>																											
13:30-14:30	LUNCH		Workshop	Workshop	Workshop	Workshop	Discussion	Business meeting	Business meeting	Business meeting	Business meeting	Business meeting	Business meeting	Business meeting													
				Using Otlet to find and share biological samples	Early career perspectives on the future of conservation	Tools for effective engagement of local communities in conservation: a participatory process based on existing knowledge, strengths, and empowerment	Discussing the major challenges confronting conservation of Asian Elephants						Oceania Section Annual General Meeting														
14:30-16:00			EID forum	Oral Presentations	Discussion	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations	Discussion	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations													
			Addressing Power Imbalances and Combating Harassment and Sexual Assault in Conservation	Scientists, stakeholders, and managers: bridging the gap 5	Conservation Optimism: Rethinking how to communicate conservation science effectively	Biomes conservation 1	Conservation genetics 2	Urban area conservation 2	Which ecosystems are threatened? Advances from the IUCN Red List of Ecosystems database	Marine conservation 2	Inventory and monitoring 2	Conservation modeling 2															
16:00-17:00	SCB members meeting (Plenary Theater)																										
17:00-17:15	Transition Time																										
17:15-19:15	Closing Plenary (Plenary Theater)																										
19:15-20:00	Open																										
20:00-23:00	Banquet at Grand Hyatt KL
