

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
MONDAY	1	Gonzalo Araujo	Citizen science highlights the distribution, threats and ecology of threatened marine turtles in the Philippines
MONDAY	2	Sumedha Korgaonkar	Filling the knowledge gap of nesting temperature of olive ridley seaturtle in the west coast of India by using an indigenous temperature data logger.
MONDAY	3	Madeline Green	Global open access platform to share, source and request biological samples- Otlet.
MONDAY	4	Leili Heidari	Assessing genetic diversity of the striped hyena (<i>Hyaena hyaena</i>) in Iran using mitochondrial DNA marker
MONDAY	5	Kedar Gore	Community Participation in Bustard Conservation in Kutch, Gujarat, India.
MONDAY	6	Binita Pandey	Current status of Bumblebees (<i>Bombus</i> spp.) and threats to their conservation in Kathmandu valley, Nepal
MONDAY	7	Ruben Venegas Li	Incorporating little penguins' (<i>Eudyptula minor</i>) dynamic feeding ranges into marine conservation prioritisation
MONDAY	8	Omasombo Wotoko Valentin	From cultural tradition protection to a legal conservation area for Bolobo bonobos: A modern conservation biology initiative to popularize
MONDAY	9	Prashant Mahajan	On a Wolf Trail: Examining Ecological and Anthropological Correlates of Indian Grey Wolf Habitat-Use in Kailadevi Wildlife Sanctuary, Rajasthan, India
MONDAY	10	Ilana Aparecida Araújo Santos	Management of the <i>Attalea funifera</i> Martius by the extractive community in a Brazilian conservation unit
MONDAY	11	Jie Huang	Distribution and spreading of invasive mangrove species <i>Laguncularia racemosa</i> in south of China
MONDAY	12	Juan Gómez	Improving the conservation success in Eco-tourism practices
MONDAY	13	Hnin Nandar	Assessing the effect of anthropogenic and environmental stressors on electrolyte balance in the Asian elephant (<i>Elephas maximus</i>)
MONDAY	14	Darith SIENG	Using genetic tools to aid conservation in Cambodia
MONDAY	15	Helen pheasey	Tracking the illegal trade in turtle eggs using GPS trackers: first results
MONDAY	16	Diana Seecharan	Wildlife and wildmeat trade in Guyana
MONDAY	17	Linh Bao Nguyen	Understanding urban consumer demand for bushmeat in Cameroon with a focus on pangolin species
MONDAY	18	Ophery Ilomo	Ocean Acidification (OA) Studies and Associated Challenges in Tanzania and Western Indian Ocean (WIO): Preliminary Overview
MONDAY	19	Justin Collette	Distribution of seed dormancy classes across a continent: interacting effects of rainfall seasonality and rarity
MONDAY	20	Md. Rishad Abdullah	Community composition of herbaceous plants and their diversity in Kaptai reserve forest, Rangamati, Bangladesh
MONDAY	21	Juliana Masseloux	Community occupancy of tropical arboreal mammals and small carnivores in Cat Tien National Park, Vietnam
MONDAY	22	Igor Reis	Landscape forest loss and sunfleck dynamics in tropical rainforest remnants of southern Bahia, Brazil

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
MONDAY	23	Markis Pesco	Diet of insectivores birds (<i>Sericornis</i> species) along elevational gradient on Mt. Michael in Eastern Highlands Province of Papua New Guinea.
MONDAY	24	Steven Canty	Linking Smithsonian science to conservation practice across working land and seascapes: examples of approaches and outcomes across the network.
MONDAY	25	Bibek Shrestha	Hatch of Hope? : Survival Estimate and Habitat Association of Critically Endangered Royal Turtle of Cambodia
MONDAY	26	Yentl Swartz	African Elephants (<i>Loxodonta africana</i>) in Madikwe Game Reserve: Measuring past and predicting future impacts
MONDAY	27	Bhagwati Uniyal	Long Term Sustainable Livelihoods Approach for Conservation of Natural Resources in Garhwal Himalaya, Uttarakhand, India
MONDAY	28	Naa Awula Nartey	Comparative Prevalence of Tick Infestation In Cattle in Southern and Northern Ghana
MONDAY	29	Paula Ávila	Incorporating urban biodiversity into the planning of Historic Urban Landscapes
MONDAY	30	Vinoth Balasubramanian	Can metropolitan cities support bird diversity? : A case study from Chennai
MONDAY	31	Desiree Andersen	Habitat suitability overlap of two threatened frog species in the Korean Peninsula
MONDAY	32	Darcy Yogi	Understanding trends of non-native invasive vegetation for the Kawaiui Marsh Restoration Project
MONDAY	33	Negin samadzadeh	Foraging analysis of brown bear (<i>Ursus arctos</i>); Golestan national park, Iran
MONDAY	34	Amy Van Scoyoc	How resource subsidies moderate risk perception of human and predator playbacks in black-tailed deer (<i>Odocoileus hemionus</i>)
MONDAY	35	Janine Tan	Dispersal and morphometric studies of <i>Anthracoentrus arabicus</i> (Thompson, 1877)
MONDAY	36	Kalyan Dahal	Status, distribution and threats for Red Panda in Gaurishakar Conservation Area, Nepal
MONDAY	37	Ilke Geladi	The effects between agricultural practices and the distribution and abundance of Darwin's finches and other land birds on Santa Cruz, Galapagos
MONDAY	38	Rupali Sharma	Alteration in biochemical traits and nutrients partitioning of <i>Asparagus racemosus</i> with response to elevated CO2 regimes
MONDAY	39	Geison Mesquita	Multicopter drone Disturbance to Swifts: A case study at breeding sites in Brazil.
MONDAY	40	Yuchieh TANG	Effectiveness of Conservation the Taiwan landlocked Salmon (<i>Oncorhynchus masou formosanus</i>)
MONDAY	41	Hassan BENAISSA	Fish hosts of the freshwater mussel <i>Unio foucauldianus</i> Pallary, 1936 (Mollusca: Unionidae)
MONDAY	42	Andrew MacIntosh	Show me chaos! seeking fractal time in the behavior of indicator species

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
MONDAY	43	Carlos Zambrana Torrelío	Determinants of species richness and endemism of vertebrates in South America
MONDAY	44	Megan Crompt	Key Conservation: A mobile app to help conservationists in real time.
MONDAY	45	Max Hofmann	Are some bird species more attractive to people than others?
MONDAY	46	Sabrina Ferdous	Light Of Conservation to the unprivileged world: Conservation education program for creating awareness among impoverished school children
MONDAY	47	Juan Gómez	Evaluating the contributions of community based ecotourism concessions to biodiversity conservation at colombian National Natural Parks
MONDAY	48	Arif Setiawan	Can your cups help save the gibbon? Conservation outlook in Central Java, Indonesia
MONDAY	49	Min Khant San	Measuring the Impacts of Inshore Fisheries Co-Management on the West Coast of Myanmar
MONDAY	50	Nicholas Wari	Holistic Community Conservation in Papua New Guinea: Sustainable health of wildlife, people, the environment and alternative livelihoods
MONDAY	51	Justine Vaz	Stronger together: lifting barriers to realizing the potential of participation in safeguarding biodiversity in urban green spaces
MONDAY	52	Darunee Markviriyá	Genetic diversity of two closely related gibbon species, <i>Hylobates lar</i> and <i>H. pileatus</i> , in the contact zone at Khao Yai National Park, Thailand
MONDAY	53	Taruhim Miranda Cardoso Quadros	Genomics of <i>Carpotroche brasiliensis</i> : unraveling paths of agroforestry towards conservation
MONDAY	54	Teresa Santos	Population genetics as a tool to support conservation of the African savannah elephant (<i>Loxodonta africana</i>)
MONDAY	55	Gayathri Sreedharan	Novel Mitochondrial Barcode Markers for <i>Batrachochytrium dendrobatidis</i> (Bd) investigations in India
MONDAY	56	Hanane RASSAM	Morphological and genetic variation of the genus <i>Pisidium</i> Pfeiffer, 1821 (Bivalvia; Sphaeriidae) of the Sebou Basin, Morocco
MONDAY	57	Rudiar Anisa	Body Condition Score Assessment of Dhole (<i>Cuon alpinus</i>) from Camera Trap Study in Baluran National Park, Indonesia
MONDAY	58	Marco ENCISO	EFFECTIVE IMPLEMENTATION OF 8a. ARTICLE OF NAGOYA PROTOCOL FOR SCIENTIFIC RESEARCH IN WILD SPECIES IN PERU. NEW INSIGHTS AND CHALLENGES
MONDAY	59	Sophie Kirklin	KELOLA Sendang mplementation in Sembilang Dangku landscape
MONDAY	60	Maia Sarrouf Willson	Application of Community-Based Social Marketing for reduction of marine wildlife net entanglement on Masirah Island, Oman
MONDAY	61	Sarah Horsley	Iconic species: Hard to define, easy to see

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
MONDAY	62	Mohammed Znari	Farmer's Perception of Crop-feeding Barbary macaques in the Upper Ourika Valley, Morocco: management of the human-monkey conflict and conservation
MONDAY	63	Ping hu	The species delimitation of Parantica butterfly and implication to conservation biology
MONDAY	64	Tamás Cserkés	From pests to endangered species: Conservation of grassland dwelling small mammals in Central Europe with the support of European Unions LIFE projects
MONDAY	65	Erika Salazar	EVALUATING LAND USE AND LAND COVER CHANGE IN HIGH MOUNTAIN LANDSCAPES FROM A SOCIOECOLOGICAL APPROACH IN NORTHERN ANDES (COLOMBIA).
MONDAY	66	Phoebe Parker-Shames	Cannabis: The Newest Western Frontier
MONDAY	67	Marcello D'Amico	Road Ecology on the European Journal of Wildlife Research: a new Topical Collection and a call for mortality data
MONDAY	68	Hoong Chen Teo	Infrastructure development under the Belt & Road – characteristics and need for a holistic and multiscale approach to address environmental impacts
MONDAY	69	Charina Sivayogam	Eight years of large carnivore monitoring: what is the status of the Clouded Leopard Neofelis nebulosa in Kenyir-Taman Negara, Terengganu?
MONDAY	70	Prescillia Putri	Do forest reserves designated as “High Conservation Value” and “High Carbon Stocks” within palm oil plantations support mammals?
MONDAY	71	Kee Dae Kim	Conservation Education Plan Using Korean Local Coastal Sand Dunes: the Implications on Conservation Literacy
MONDAY	72	Natalie Forsdick	My year with Orbell – From monstrosity to science communication queen
MONDAY	73	Tanya Leibrick	Tengah Island Conservation & Batu Batu – Working with Tourism Stakeholders to Connect Communities and Conservation in the Johor Marine Park, Malaysia
MONDAY	74	Kartika Zohar	INTRODUCING LEATHERBACK SEA TURTLE AND CONSERVATION EFFORT IN WEST PAPUA
MONDAY	75	Nitya Satheesh	Using Art to Evaluate Conservation Education
MONDAY	76	Wang San Dee Ram	Involving Local Communities in Conservation Impacts their Perceptions; a case study from the Hponkanrazi Wildlife Sanctuary, Myanmar
MONDAY	77	Muhammad Janra	29th International Congress for Conservation Biology
MONDAY	78	Zan Hui Lee	Surveys of nesting Peregrine Falcons (<i>Falco peregrinus ernesti</i>) in Peninsular Malaysia
MONDAY	79	Zawan Al Qassabi	Conservation Assessment of the Arabian Dragon's Blood Tree (<i>Dracaena serrulata</i>) in Oman
MONDAY	80	Laura Gigliotti	Context-dependency of top-down and bottom-up influences on cheetah demography
MONDAY	81	Federico Kacoliris	Successful establishment of a translocated population of the Critically Endangered Valcheta frog in a recovered habitat in Patagonia, Argentina

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
MONDAY	82	Toai Nguyen	Indigeneity and Socioeconomic Determinants of Consumption of Hardwood Timber in the Buffer Zones of Vietnam's Bu Gia Map National Park
MONDAY	83	Neeraj Prajapati	Ethnobotanical uses of medicinal plants and ecological conservation by tribals of Umaria district (India)
MONDAY	84	Dominic Muenzel	Comparing current approaches to design connected marine reserve networks that maintain population persistence
MONDAY	85	Nicole Shumway	Spatially flexible offsets can deliver improved biodiversity outcomes for migratory species
MONDAY	86	Constant GNANSOUNOU	Utilization of mangroves in Grand-Popo District, a hotspot of mangroves in Benin, West-Africa
MONDAY	87	Enoabasi Anwana	Mangrove Management and Conservation in Niger Delta, Nigeria; challenges and synergies
MONDAY	88	Claudiu PAȘCA	First beaver (<i>Castor fiber</i>) damage evaluation after successful reintroduction into Romania
MONDAY	89	Tamer Khafaga	Hyper-arid Wilderness Areas as Natural Capital and the Environmental Challenges they face – A Dubai Emirate Perspective
MONDAY	90	Pourya Sardari	Systematic selection of protected areas for MacQueen's bustard (<i>Chlamydotis macqueenii</i>) in north-east of Iran.
MONDAY	91	Adang Lucas	Some aspects of the breeding biology of the African Thrush <i>Turdus pelios</i> Linnaeus 1884 in Lokoja, Kogi State, Nigeria
MONDAY	92	Siti Norasikin ISMAIL	Primary Succession in a Secondary Forest of Orang Utan Rehabilitation Site, Samboja Lestari, East Kalimantan
MONDAY	93	Kendall Calhoun	Resilience in Ecological Communities: Monitoring wildlife after California's largest wildfire
MONDAY	94	Mohamed Iqbal	Can short term Assisted Natural Regeneration initiate restoration of dry forests?
MONDAY	95	Bettycopa AMIT	BIRDS AND MAMMALS OF THE SABAJU OIL PALM CONSERVATION AREA, BINTULU, SARAWAK
MONDAY	96	Subodh Yadav	Participatory Approach to Monitor Forest Fire and Sustain Forest Bio-diversity
MONDAY	97	Betty Millyanawati	Growth Rate of Wild Caught Javan Warty Piglets
MONDAY	98	Manashi Goswami	Conservation status of butterflies in hill areas of Assam, India and the role of Biodiversity Management Committees in conservation
MONDAY	99	Min Hein Htike	Population density Estimate of Eastern Hoolock Gibbons (<i>Hoolock leuconedys</i>) in Hponkanrazi and Htamanthi Wildlife Sanctuaries, Northern Myanmar
MONDAY	100	Nesty Romadini	Title: Conservation of <i>Dipterocarpus gracilis</i> Blume: Update and Challenges
MONDAY	101	Faiznur Ain AHMAD BAKRI	Activity patterns of crab eating macaque (<i>Macaca fascicularis</i>) and their distribution in Gunung Ledang, Johor

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
MONDAY	102	Joelisoa Ratsirarson	Importance of integrated monitoring with the local communities involvement in sustainable biodiversity conservation in southwestern Madagascar
MONDAY	103	Shiva Devkota	Wild Mushrooms of Monsoon Nepal: Species Diversity and Ecosystem Services
MONDAY	104	Ayan SADHU	Monitoring of a small isolated tiger population in human dominated landscape
MONDAY	105	Anne Chuter	Threatened Plant Adviser: a decision support system for managing threatened flora species within the Tasmanian forest practices system
MONDAY	106	Aqilah Awg Abdul Rahman	Diversity of butterflies (Lepidoptera: Papilionoidea) in Gunung Arong Forest Reserve, East Johor, Malaysia
MONDAY	107	Ali Irzal	Natural seed distribution of Mersawa <i>Anisoptera marginata</i> Korth fruit in an open area, Central Kalimantan, Indonesia
MONDAY	108	Sanjay Gubbi	Spotted but not counted
MONDAY	109	Muhammad Ikhsan	Preliminary study on effect of oil palm plantation to plankton diversity in the surrounded river
MONDAY	110	Irfan Ahmad KHAN	BOTIA BIRDI CHOUDHARY - A VICTIM OF CULTURAL EUTROPHICATION & MISMANAGEMENT
MONDAY	111	Farai Dondofema	The potential of Remote sensing to detect Harmful Algal Blooms on inland aquaculture fish dams: A case study in Limpopo Province, South Africa
MONDAY	112	Vidyadhar Atkore	Impact of the hydro-power dam on fish communities in the North Eastern Himalayas India
MONDAY	113	Charl Deacon	Aquatic insects decline in abundance and occupy sub-optimal habitats to survive hydrological droughts
MONDAY	114	Mohamed NAIMI	Conservation physiological ecology of a marginal population of the Sahara Desert Blue-eyed pond turtle, <i>Mauremys leprosa saharica</i> , in Southern Morocco
MONDAY	115	Mustafizur RAHMAN	Analysis of alpha and beta diversity of fish community in the 15 wetlands and need for conservation
MONDAY	116	Tatenda Dalu	Ecosystem responses to rotenone treatment in two reservoirs in the Western and Northern Cape provinces, South Africa
MONDAY	117	Shabani Ekyamba	Study on ichthyofauna of Lomami National Park and its hinterlands, Democratic Republic of the Congo
MONDAY	118	Mariola Silvestre	Seed size, ant worker size and seed removal rate response to temperature in Mediterranean grasslands
MONDAY	119	Mustafijur Rahaman	Population diversity and significance of some acrididae fauna from Gangetic plains of West Bengal, India
MONDAY	120	Abdul Halik	Public Deliberation on How to Protect Coral Reef, a Case Study in Sulawesi
MONDAY	121	Nohelia Farias Curtidor	Mercury levels found in small Cetaceans in La Guajira (Colombian Caribbean)
MONDAY	122	Irman Rumengan	"The Corals Gets Health but Fish Biomass Decline; Reef Health Monitoring at Cenderawasih Bay National Park in 2011-2018"

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
MONDAY	123	Shaaban Mwachireya	Managing local anthropogenic stresses may minimize or mitigate the adverse impacts of climate change
MONDAY	124	Habema monim	Coral Reef Status based on Zones in Ayau - Asia Regional Marine Protected Area (RMPA) Raja Ampat Regency
MONDAY	125	Riani Widiarti	THE EXISTENCES OF HARMFUL BENTHIC DINOFLAGELLATE ON MACROALGAE IN BELITUNG ISLAND, AND THE NEEDS TO CONSERVE HEALTHY ECOSYSTEM IN THE WATERS
MONDAY	126	Hadiwijaya Salim	Spatial Pattern of Water Quality on Coral Reef Area around Kaledupa Island
MONDAY	127	Joan Gimenez	Identifying proactive marine protected areas for elasmobranchs in highly exploited ecosystems
MONDAY	128	Rio Button	Remotely Operated Vehicle exploring fish and habitat associations from shore-shelf, in an Marine Protected Area and its proposed expansion area
MONDAY	129	Maxime Sauvaire	Morphometry and reproductive output of <i>Chelonia mydas</i> (Linnaeus, 1758) population of Chagar Hutang, Malaysia over the past 25 years
MONDAY	130	Benjamin Kahn	The pygmy blue whales (<i>Balaenoptera musculus breviceuda</i>) of the Savu and Banda Seas, Indonesia: Conservation planning for a highly migratory species.
MONDAY	131	Karla Calderon Mayo	CAN HOST MIGRATION DRIVE THE CO-OCCURRENCE OF PARASITE POPULATIONS (<i>Caligus quadratus</i>) IN FISH SPECIES FROM THE SOUTH-EASTERN PACIFIC COAST?
MONDAY	132	Lalith Ekanayake	Assess the current level of sea turtle bycatch to reduce turtle-human conflict in Kalpitiya Peninsula, Sri Lanka
MONDAY	133	Dini Purbani	The Concept of Eco Fishing Port Based on Water Quality for Port Management : Case Study PPI Barek Motor, Bintan Regency
MONDAY	134	Russell Rader	Are aquatic invertebrates isolated in headwater tributaries?
MONDAY	135	Clara Nanja	Factors influencing habitat utilization and occupancy of Slaty Egrets in Zambia's Barotse floodplain Important Bird and Biodiversity Area.
MONDAY	136	Lindsay Kemmerling	Tradeoffs between conservation value and yield in perennial biofuel crops
MONDAY	SCB Groups		
MONDAY	139	John Cigliano	Participatory & Citizen Science Working Group
MONDAY	140	Ashley Dayer	Social Science Working Group
MONDAY	141	Amaël Borzée	Korea Chapter
MONDAY	142	Israel Borokini	Africa Section
TUESDAY	143	Joelisoa Ratsirarson	Madagascar Chapter
TUESDAY	144	Fikty Aprilinayati	Indonesia Chapter
TUESDAY	145	Anthony Giordano and Karla Pelz	LACA Section
TUESDAY	146	Leslie Cornick; Katie Walters	Marine Section
TUESDAY	147	Nicola Nelsen	Oceana Section

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
TUESDAY	1	Muna HUSAIN	The morphology and toxicity of dinoflagellate <i>Prorocentrum lima</i> from Kuwait territorial waters
TUESDAY	2	Siddharth Pillai	Feasibility and Sustainability of 3D printed Artificial Reef
TUESDAY	3	Sheelasheena Damian	The establishment of TMP: legal perspective
TUESDAY	4	Nohora Galvis	Turning findings into insights from a decade of Evaluating Colombian Coral Reefs Conservation Effectiveness
TUESDAY	5	Vanessa Joglar	Spatial and temporal variability of microbial plankton responses to contributions of inorganic nutrients and B vitamins in the coast and open ocean
TUESDAY	6	Viet dang do hung	The role of sea urchins on coral recruitment in Taiwan
TUESDAY	7	Khilendra Kanwal	Impact assessment of climate and land-use change on subalpine and alpine vegetation of Arunachal Himalaya
TUESDAY	8	Gonçalo Curveira-Santos	African carnivore assemblages' diversity and spatial structure across human-induced landscape gradients
TUESDAY	9	Jacquelyn Tleimat	Winners and losers: small mammal responses to tropical land use change
TUESDAY	10	Atul K Singh	Fish Invasions, Biodiversity Loss and Regulatory Practices in India
TUESDAY	11	Soladoye Iwajomo	Predictors of bird species abundance and richness in urban green spaces within the Lagos megacity of Nigeria
TUESDAY	12	Jurj Ramon	Fauna Management in urban areas in Romania - Case study Brasov-Valea Prahovei
TUESDAY	13	Cahyo Rahmadi	Cave Biodiversity of Maros-Pangkep Karst, South Sulawesi, Indonesia : diversity and its conservation status
TUESDAY	14	Avantika Bhaskar	Tropical mountain wetlands- protecting the water towers
TUESDAY	15	Endang widiastruti	EMPOWERING LOCAL COMMUNITY THROUGH MANGROVE CONSERVATION IN MARGASARI VILLAGE OF EAST LAMPUNG DISTRICT - INDONESIA
TUESDAY	16	Nasreen Jeelani	Remediation of soil co-contaminated with pyrene and cadmium by growing <i>P.australis</i> (common reed)
TUESDAY	17	Gilbert MICOMYIZA	Enhancing the conservation efforts of Akanyaru and Nyabarongo wetlands, Rwanda.
TUESDAY	18	Basma Sheta	Biodiversity and habitat use of wintering and breeding waterbirds in Burullus Lake (Ramsar site), Egypt.
TUESDAY	19	Brad Sanders	Production-protection landscape model, bridging business and conservation
TUESDAY	20	Ramana Callan	Free-roaming dogs potentially limit habitat use of giant pandas in nature reserves
TUESDAY	21	Uhram Song	Mowing is the major reason how <i>Hypochoeris radicata</i> L. became successful invader in Jeju island
TUESDAY	22	Minhyun Lee	A study on the environmental friendly management of <i>Solidago altissima</i> L., invasive species.
TUESDAY	23	Osvlado Ramírez Bravo	First record of <i>Apophysomyces Elegans</i> in bats
TUESDAY	24	Dain Christensen	Does Predator-Proof Fencing Improve Fledging Success of the Hawaiian Stilt (<i>Himantopus mexicanus knudseni</i>)?

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
TUESDAY	25	Digne Brigitte KAMUGIRE	Assessing the effectiveness of indigenous plants on postharvest pest control in Rwanda:Case of Tetradenia riparia and Tephrosia vogelii on bean weevil
TUESDAY	26	Flora Olaifa	CHRONIC EXPOSURE TO SUBLETHAL CONCENTRATIONS OF LEAD AND BIOACCUMULATION IN CATFISH (<i>Clarias gariepinus</i>) JUVENILES
TUESDAY	27	Moreno Di Marco	Understanding the role of intrinsic and extrinsic drivers of loss in species climatic niches
TUESDAY	28	Takamichi Jogahara	Estimated population dynamics of the endangered Amami spiny rat (<i>Tokudaia osimensis</i>)
TUESDAY	29	Anushka Rege	Understanding wildlife use and human management of forest-cashew landscapes in northern Western Ghats, India
TUESDAY	30	Ramesh NATH	Biodiversity of sericigenous insect of north eastern region of India and strategy for conservation
TUESDAY	31	Amber ASIF	Indus river canyon, Pakistan's second marine protected area, a step towards the conservation of Arabian Sea hump back whale and endemic species
TUESDAY	32	Callixte Gatali	Development of biodiversity indicators for buffer zones of Rwanda's protected areas: Focus on Nyungwe National Park
TUESDAY	33	Leonardo Espinoza	Conservation of amphibian phylogenetic diversity in a Biodiversity Hotspot under current and future scenarios of anthropogenic drivers
TUESDAY	34	Ni Wayan Utami	Prioritising management strategies to conserve the multiple values provided by Taman Nasional Bali Barat (TNBB), Indonesia
TUESDAY	35	Takashi Nagamine	Ex-situ conservation of Okinawa Rail (<i>Hypotaenidea okinawae</i>)
TUESDAY	36	Yumiko Nakaya	Examination of training method for reintroduction of Okinawa rail (<i>Hypotaenidea Okinawae</i>)
TUESDAY	37	Li Zhang	Free Flying Wings - protects endangered shorebirds and their habitats in China
TUESDAY	38	Deo Kujirakwinja	What makes communities to support protected area management. Case study from the eastern DR Congo
TUESDAY	39	Nerissa Chao	Asian Species Action Partnership: Call for action for species on the brink
TUESDAY	40	Pooja Koju Shrestha	Epiphytic orchids and their host trees in Naule Chharchhare community forest, Kaski, Nepal
TUESDAY	41	Gladys Schwinger	A Review of the Ethnomedicinal Use of the Meliaceae in Ghana
TUESDAY	42	Lisa Manne	Loss and time of recovery of a macroecological relationship following a hurricane strike
TUESDAY	43	Freya Thomas	Small green space and human emotions
TUESDAY	44	Yan chen	Challenges in conserving over-harvested plant species with high socio- and economic values -A case study on the Chinese agarwood <i>Aquilaria sinensis</i>
TUESDAY	45	Zara Phang	Valuing natural capital in the Heart of Borneo

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
TUESDAY	46	Priryanka Pandey	ASSESSING TROPHIC STATE OF NAGDAHA LAKE, CENTRAL NEPAL
TUESDAY	47	Kate Allberry	Connecting cats: assessing the population connectivity of apex predators in Peninsular Malaysia.
TUESDAY	48	Chihiro Takahata	Where large carnivores use, occupy and persist in human-disturbed landscape?
TUESDAY	49	Fernanda Alves	Occupancy and abundance of an endangered habitat specialist and a congeneric, sympatric generalist.
TUESDAY	50	Pooja Pawar	Birds beyond borders: hornbill population, nesting and conservation in contiguous rainforests and adjoining plantations in Anamalai Hills, India
TUESDAY	51	Amlan Goswami	30 years of urban development in Guwahati and its effect on the distribution of five large mammals residing in the city.
TUESDAY	52	Cai Lyu	Communication and Collaboration beyond Boundaries: Conservation Initiatives in the East Asia-Australasian Flyway
TUESDAY	53	Jane Herrera-Uria	Cuban terrestrial malacofauna from Isla de la Juventud and Alejandro de Humboldt National Park, threats for the conservation of their endemic species.
TUESDAY	54	Margarita Reverter Cid	Drastic reduction of optimal habitat for threatened species due to crop presence: food availability as a key driver
TUESDAY	55	Haley Kizer	Evaluation of allostatic load as a measurement of chronic stress in captive giraffe
TUESDAY	56	Joydeep Shil	Habitat utilization and ranging pattern of Endangered Golden langur <i>Trachypithecus geei</i> in Chakrashila WLS, Assam, India
TUESDAY	57	Brian Crudge	Strategic planning for the conservation of Sun Bears, <i>Helarctos malayanus</i> , 2019 - 2028
TUESDAY	58	Dave Seaman	Densities of Bornean orang-utans (<i>Pongo pygmaeus morio</i>) in heavily degraded forest and oil palm plantations in Sabah, Borneo
TUESDAY	59	Ravinder Kaur	Hornbill nest cavity restoration
TUESDAY	60	Sunaryo Muhtar	REDD+ mechanism is a potential funding source for conservation area management
TUESDAY	61	Andrew Skowno	Putting the IUCN Red List of Ecosystems to work: lessons from a decade of implementation in South Africa
TUESDAY	62	Li Ng	The Impacts of China's Belt and Road Initiative on Biodiversity in Southeast Asia
TUESDAY	63	Daniel Rogers	Making decisions in the Anthropocene: The role of evidence in a future-facing conservation sector
TUESDAY	64	Anubhab Khan	Characterisation of genetic variation and inbreeding in a small isolated populations: A study in tigers
TUESDAY	65	Dyah Kurniawati	Zoonotic Gastrointestinal Protozoa in Long Tailed Macaques at Baluran Nasional Park, East Java Indonesia
TUESDAY	66	Sanjay Paudel	People, wildlife and changing climate in Gaurishankar Conservation Area, Nepal

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
TUESDAY	67	Yahaya Musah	Epidemiology, ecology and human perceptions of snakebites in a savanna community of northern Ghana
TUESDAY	68	Nurzaharina Othman	Shift of paradigm needed towards improving human–elephant coexistence in monoculture landscapes in Sabah
TUESDAY	69	Natalie Haussmann	Aardvark: friend or foe? Assessing the relationship between farmers and burrowing mammals on South African farms
TUESDAY	70	Aadrean Aadrean	Otters - fish-farmers Conflicts in Padang Pariaman Regency, West Sumatra, Indonesia
TUESDAY	71	Jacob Owens	Threat of domestic dogs to giant pandas and other wildlife in Liziping Nature Reserve, Sichuan, China
TUESDAY	72	Arooj.Fatimah FATIMA	Current status of human-leopard conflict and mitigation measures in Himalaya Region, Pakistan
TUESDAY	73	Myo Naing Win	Predicting and preventing Human-Elephant Conflict (HEC) in the forests of southern Myanmar
TUESDAY	74	Manjari Malviya	Determinants of people’s perceptions towards conflict with reintroduced tigers in Sariska Tiger Reserve, India
TUESDAY	75	Niall Hammond	Reintroductions and Conflict: the importance of evaluating human-wildlife conflict during reintroduction consultations
TUESDAY	76	Joana Pereira	Human-wildlife conflicts in NE Mozambique: understanding the social and biological contexts of the conflict
TUESDAY	77	Stephen Aina	CHARACTERIZATION OF VETERINARY PREFERENCE FOR NSAIDS: IMPLICATIONS FOR VULTURE CONSERVATION IN NIGERIA.
TUESDAY	78	Mariana CATAPANI	Managing free-ranging cats in a Brazilian urban park: the stakeholders' perspective
TUESDAY	79	Naresh Kusi	Living with Himalayan wolf and snow leopard: A quest for positive coexistence
TUESDAY	80	Igor Khorozyan	Frameworks for most effective and long-lasting non-invasive interventions to prevent damage by predators
TUESDAY	81	Sarah Jacobson	Bringing behavior and cognition into conservation: assessing the behavioral and cognitive traits of Asian elephants in Kanchanaburi, Thailand
TUESDAY	82	Min CHEN	Sea Turtle conservation situation in China
TUESDAY	83	Anna Ermakova	Comparative in situ Census Study of Lophophora williamsii Subjected to Different Harvesting Regimens
TUESDAY	84	Mbunya Francis Nkemnyi	Who governs in the Tofala Hill Wildlife Sanctuary?
TUESDAY	85	Regan Sapkota	Habitat Preference and Burrowing Habits of Chinese Pangolin in Shivpuri Nagarjun National Park, Nepal
TUESDAY	86		
TUESDAY	87	Shujaul Khan	Conservation Status and Restoration Strategies for Mazri Palm {Nannorrhops ritchiana (Griff.) Aitch. Along the Indus Gorge

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
TUESDAY	88	Excellence AKEREDOLU	Assessment of wildlife trade and compliance with the Convention of International Trade in Endangered Species (CITES) in Lagos ,Nigeria
TUESDAY	89	Abigail Brown	Animal welfare values in a conservation conflict: exploring polarised perceptions of legalised rhino horn trade
TUESDAY	90	Kopila Adhakari	The illegal trade of biological resources: Major problem for the conservation in Nepal
TUESDAY	91	Tomas Zuklin	Trading lives, saving lives: Connecting international and national rescue efforts of (not only) chelonians in Southeast Asia
TUESDAY	92	Alejandra Goyenechea	A snapshot of illegal wildlife trade from Latin America to the United States
TUESDAY	93	Mochamad Indrawan	Wildlife trade in Indonesia: to go beyond studies and investigations
TUESDAY	94	Frantisek Pribrsky	The Kukang Rescue Program: Conservation action plan on tackling illegal wildlife trade and protecting Nycticebus spp. in the North Sumatra province
TUESDAY	95	Randy John Vinluan	Mapping the illegal wildlife trade routes in a biodiversity hotspot: The Philippines
TUESDAY	96	Juan Julia	Project: Reinforcement of toco tucan populations (Ramphastos toco) in Tucumán province, Argentina
TUESDAY	97	Kyaw Hla Thein	Long-term monitoring of river dolphin populations in Myanmar
TUESDAY	98	Olivia Lapis	Effectiveness of Camera Traps in Combating Wildlife Crime
TUESDAY	99	Munib Khanyari	Understanding spatio-temporal variation and climate-driven distribution shifts in transmission potential of disease to inform proactive management
TUESDAY	100	Valery Binda Aghah	Using a little-known bird species, the Banded Wattle-eye as flagship for the community-based conservation of its Kilum-Ijim Community Forest habitat
TUESDAY	101	Ian Little	Protecting priority habitat and biodiversity through strategic and collaborative legislative amendment and data provision
TUESDAY	102	Saurabh Dewan	Turning poachers into protectors: towards conservation of mahseers in Nayar river valley, Uttarakhand, India
TUESDAY	103	Mohammed Znari	Population size and structure of the Endangered Barbary sheep in Amassine reserve, High Atlas range, Morocco: implications for management
TUESDAY	104	Darrel Tiang	Connectivity Modelling of Landscapes Fragmented by Agriculture
TUESDAY	105	Luca Santini	Improving predictions of population density in mammals for conservation analyses
TUESDAY	106	Diana Sousa Guedes	Comparison of five regression techniques (GLM, GAM, Random Forest, Boosted Regression Trees and GGWR) to model amphibian road-kills

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
TUESDAY	107	Carmen Soria	Trait data quality and availability: a review of mammal trait databases
TUESDAY	108	Claire Stewart	Protecting biodiversity outside protected areas: what factors influence private landowners to participate in voluntary private land conservation?
TUESDAY	109	Boyd Simpson	Enriching forest habitats with artificial saltlicks
TUESDAY	110	Juan Julia	Reintroduction of lowland tapir (<i>Tapirus terrestris</i>) in Tucuman province, Argentina.
TUESDAY	111	Mika Vermeulen	Snapshot Safari – South Africa: Contemporary applications of camera traps to monitor mammal communities in South Africa
TUESDAY	112	Dorota Kotowska	Collecting data on invasive alien plant species distribution with Google Street View
TUESDAY	113	Oliver Griffin	Species lists: a workflow to manage this fundamental resource effectively
TUESDAY	114	Sharon Rose Tabugo	Fractals as indicators of vulnerability for Seahorse Conservation
TUESDAY	115	Alex Gridan	Distribution, structural and functional characteristics of beaver dams (<i>Castor fiber</i>): Case study Black River Basin
TUESDAY	116	Robert Smith	Conservation social networking, ecotourism and land-use planning in Maputaland, southern Africa.
TUESDAY	117	Callie Berman	Caviar and the post-Soviet Caspian Renaissance: the nexus of agricultural sector revitalization, tourism-based development, and green imaging
TUESDAY	118	Milton de Andrade Junior	Planning for sugarcane driven land-use change in Brazil: Priority areas for biomass and biodiversity conservation
TUESDAY	119	Satomi Mitsui	Analyzing characteristics of Japanese national parks using management plans
TUESDAY	120	Naomi Indigo	Unpleasant surprises: a full field trial of a promising conservation action suggests it won't work.
TUESDAY	121	Rong Hou	A Self-sustainable Captive Population of Giant Pandas (<i>Ailuropoda melanoleuca</i>) is Successfully Developed in P.R.China
TUESDAY	122	Juan Julia	Rescuing the southernmost marsupial frog species (<i>Gastrotheca gracilis</i>) in Tucumán province, Argentina
TUESDAY	123	Pramana Yuda	Molecular Sexing of Confiscated Raptors in Yogyakarta, Indonesia
TUESDAY	124	Mousumi Ghosh	DNA metabarcoding for parallel identification of Gyps vulture species, gender and diet from faecal samples: generating data for conservation planning
TUESDAY	125	Sabitri Rai	Trend analysis and climate change impacts on drinking water in hilly region of Koshi Zone, Nepal
TUESDAY	126	Debra Zuppinger-Dingley	The University of Zurich Research Priority Program on Global Change and Biodiversity: A bridge across disciplines, for nature and people.
TUESDAY	127	Michel Valette	Dynamic system approach to improve seed supply for Forest Landscape Restoration

ICCB 2019 Program Schedule

Poster Sessions

Day	Poster Number	Presenting Author	Title
TUESDAY	128	Wei-Chia SU	An Expectant Bridging Organization in Adaptive Governance: The role of Taijiang National Park Headquarter
TUESDAY	129	Louis Elliott	Connecting Indigenous rangers and science – trialling techniques to bust salvinia ‘sudds’ and rehabilitate wetlands in Kakadu National Park, Australia
TUESDAY	130	Paula Prist	Is landscape structure able to predict wild yellow fever virus occurrence?
TUESDAY	131	Amoure Robinson	The influence of water availability on the spatial distribution of African mammalian herbivores.
TUESDAY	132	Ratheesh Kallivalappil	The decline of global pollinator biodiversity in the Anthropocene
TUESDAY	133	Benedictus Freeman	Using remotely sensed and climate data to predict the geographic distributions of birds at multiple scales: Agelastes meleagrides in West Africa
TUESDAY	134	Sandra Ribeiro	Joint decision-making: Integrating traditional ecological knowledge, social participation and science for zoning a multiple use marine protected area
TUESDAY	135	Cécile Sarabian	Disgust as a tool to mitigate human-wildlife conflicts and enforce appropriate ecotourism practices?
TUESDAY	136	Carolina Isaza	Demographic aspects of four understory palm (Arecaceae) species used as ornamentals in Colombia
TUESDAY	137	Todd Minchinton	Habitat fragmentation leads to reduced pollinator visitation, fruit production and recruitment in urban mangrove forests
TUESDAY	138	Alessandro Ponzo	Understanding a complex relationship: an assessment of marine wildlife tourism with marine turtles at Apo Island Protected Landscape and Seascape
TUESDAY	SCB Groups		
TUESDAY	139	John Cigliano	Participatory & Citizen Science Working Group
TUESDAY	140	Ashley Dayer	Social Science Working Group
TUESDAY	141	Amaël Borzée	Korea Chapter
TUESDAY	142	Israel Borokini	Africa Section
TUESDAY	143	Joelisoa Ratsirarson	Madagascar Chapter
TUESDAY	144	Fikty Aprilinayati	Indonesia Chapter
TUESDAY	145	Anthony Giordano and Karla Pelz	LACA Section
TUESDAY	146	Leslie Cornick; Katie Walters	Marine Section
TUESDAY	147	Nicola Nelsen	Oceana Section
