2Days 1Night in Tasik Kenyir, Terengganu

Date: 26 – 27 July 2019

Lake Kenyir is the biggest lake of Malaysia and this popular attraction is located within the state of Terengganu. It's a place for nature lovers who don't mind the discomfort/dangers that usually comes with such places. Within the area, you can find around 340 small – mainly uninhabited – islands; many waterfalls and caves. There is also an abundance of wildlife to be found in the Kenyir area.

Experience a unique sight from varieties of birds when you walking along the trails with the guide from experience local birdwatchers. Indulge the experience of Kenyir jungle trails leads by local botanists and be mesmerized from the experience of Mahseer swimming under your feet. Spend the night in the wilderness accompanied by the song of the forests while you stargazing in the night.

Min of pax: 10 pax, max 40 pax

Deadline: 26 June 2019

Price per pax: MYR790.00nett

4Days 3Nights Rainforests & Indigenous People Fieldtrip

Date: 26 – 29 July 2019

The Sungai Yu Wildlife Corridor is the most important in Malaysia being the last passage between Taman Negara and the Titiwangsa Range, the largest forest landscapes in Malaysia. You will spend a day with the semi nomadic indigenous women who call the Sungai Yu forest their home. You will forage with them looking for whatever they need, maybe leaves for weaving or fish or rats for eating. You will be joined by local experts from University Malaysia Kelantan who are studying the indigenous uses and knowledge of the forest plants.

The full day you will join the Batek men in search for gibbons and Siamang as well as primatologists from University of Science, Malaysia, as well as conduct a patrol using the SMART method.

You will spend one evening doing a night trek looking for nocturnal animals and another night eating dinner with a local Malay family experiencing true Malay hospitality.

This trip will allow you to discover the true Peninsular Malaysian forests and meet people who call the forest their home.
